DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed June 24, 2002 has been considered. Please see the attached initialed PTO-1449.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 11 and 28 contain the trademark/trade names Cremophor EL, Cremophor RH 40 and Cremophor RH 60. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe polyethyleneglycol-hydrogenated castor oils and, accordingly, the identification/description is indefinite.

Allowable Subject Matter

4. Claims 1-10, 12-27 and 29-33 allowed. The prior art of record neither teaches nor suggests the use of a hydrophilic solvent characterized by being a lower alkyl ester of a hydroxyalkanoic acid or an N-alkyl pyrrolidone. Gunkowski et al. is cited as of interest because it picks up on the concept of a mixture of a high HLB solvent and a low HLB solvent.
